### INVESTORS IN A FRESH FIELD

F. J. Amweg to Manage the New Construction Company.

Frederick J. Amweg, chief engineer of the Honolulu Rapid Transit and Land Company, has announced his formal resignation from that position, and his connection with the Hawaiian Engineering and Construction Company, as its manager. Mr. Amweg is unusually well adapted for his new position, having in the course of his professional training, thoroughly mastered the various branches of civil engineering; including the designing and superintending of bridges and building and railroad properties in the light of actual experience.

From the commencement of his training, twenty-eight years ago, as an architectural draughtsman, Mr. Amweg took up bridge draughtsmanship as his specialty, particularly in connection with railroad engineering.

Among the more important erections designed and built under the engineering charge of Mr. Amweg, have been the following: The Market street cantilever bridge, over the Schuykill river, Philadelphia; also, one at City avenue in the same city, and the New river bridge at Radford, Va. Several well known business blocks built by him are the Terry building at Roanoke, Va.; the Young Men's Christian Association building at Germantown, Pa.; a fire house in the same city, and the million dollar structure of the Wernersville Insane Asylum, Philadelphia; the Stangenwald block in this city, being the last building erected under the supervision of Mr. Amweg.

The lately incorporated Hawaiian Engineering and Construction Company believe that there is a field in these islands for all classes of engineering work, that is practically clear from competition. Offices have been secured in the Stangenwald building, and the firm, with F. J. Amweg, M. A. M. Soc. C. E., as manager, advertise themselves as ready to undertake all classes of engineering work, as the examination surveys and reports on waterworks, and all branches of steam and electric construction. Contracts will be solicited for canals, bridges, buildings, highways, foundations, piers, wharves, etc., while special attention will be given to valuations and reports of properties for investment purposes. That the building community is willing to have such work done here now such a course is made possible, has already been evidenced by the amount of orders already bestowed upon the new firm. With the expert management concerned the largest local undertaking can be carried through without the unpatriotic and more expensive system, hitherto resorted to, of sending to the Mainland for experts. Architectural plans will not be furnished by the new company, their work in that field being limited to the actual construction.

#### NO LOSS OF TIME.

I have sold Chamberlain's Colic, Cholera and Diarrhoea Remedy for years, and would rather be out of coffee and sugar than it. I sold five bottles of it yesterday to threshers that could go no farther, and they are at work again this morning. —H. R. Phelps, Plymouth, Oklahoma. As will be seen by the above the threshers were able to keep on with their work without losing a single day's time. You should keep a bottle of this remedy in your home. For sale by Benson, Smith & Co., Ltd., wholesale agents.

GENERAL TUNG FUNG SIANG.

Tung Fung Siang is one of the ablest of Chinese military men. He was formerly commander of the northern army of China, but is now one of the most virulent and active of the rebels who menace the safety of the imperial court. General Tung Fung Siang now has under his command 11,000 of the best trained and seasoned native Chinese soldiers.
